

Multi-Link, Inc.

Remote Service Cost Savings Calculator

Multi-Link, Inc. makes affordable, cost-cutting telecom equipment for a wide variety of commercial, government, and residential applications. Multi-Link specializes in Remote Power Control Devices, namely *The Power Stone®* and *The IP Power Stone® 4000*.

Multi-Link Remote Power Control Devices allow maintenance technicians to reboot, cut or re-establish power to devices located in a remote location, all over a standard telephone phone line or an internet connection. On demand power control to remote site equipment reduces unplanned service dispatches, improves asset availability, and meets customer demand for faster service and less downtime.

To determine how much you can save with our products, just fill out this simple form:

Cost of Service Dispatch \$
(Average cost of remote site visit
including labor, fuel, vehicle wear)

**Number of Service Dispatches
Per Month**

**Equipment Downtime Expense
Per Month**

Potential Monthly Savings \$

Potential Annual Savings \$

Potential 3 year Savings \$

Potential 5 year Savings \$
